

P3 Electrified Summit 2024 to Tackle Innovations in Energy Infrastructure and Electrification in San Diego

Rockville, MD – August 29th – P3 Electrified Summit 2024, one of the year's most significant gatherings for the energy sector, is set to take place in San Diego, CA from September 17-18. The conference will bring together industry leaders, policymakers, and experts to address the complexities of modern energy projects while focusing on innovative solutions to shape the future of energy infrastructure. The event is proudly partnered with leading organizations, including **POWER, the National Association of Energy Service Companies (NAESCO), the Centre for Energy Advancement through Technological Innovation (CEATI), the Electrification Coalition, and the Association for the Improvement of American Infrastructure (AIAI).**

Key discussions will include:

- **Navigating Federal Funding and Investment Challenges:** Experts will examine how new federal funding initiatives are influencing energy project development and the role of private investment in bridging gaps in global energy transitions.
- **Advancing Grid Reliability and Cybersecurity:** The conference will address critical issues in grid reliability, including resilience against extreme weather and the integration of renewable energy sources, alongside advancements in cybersecurity to protect vital infrastructure.
- **Case Studies in Energy Transformation:** Noteworthy examples such as University of Maryland's transformation of its campus energy system through their NextGen Energy Program and Henry Ford Health System's sustainable Central Energy Hub will be featured, providing real-world insights into successful project execution and financing.
- **Innovations in Charging Infrastructure:** A focus will be placed on accelerating the deployment of electric vehicle charging infrastructure, including strategies for regional contracts and partnerships aimed at expanding access to fast charging solutions.

P3 Electrified Summit 2024 will also offer networking opportunities and interactive sessions designed to foster collaboration and drive forward innovative solutions in the energy sector.

“This year’s conference represents a crucial opportunity to address the current challenges and explore transformative solutions in energy infrastructure,” said Sarah Zinn, Brand Manager for P3C Media. “We’re excited to bring together diverse perspectives from the public and private sectors to advance the conversation on how we can collectively shape a sustainable and resilient energy future.”
